

Dry Break Couplers

Crankcase Dry Break Couplers

Standard Nozzle N100

N100p (with Plug)

Mates with the standard crankcase receiver.

R series Nozzle N100R

N100Rp (with Plug)

Mates with the "R" series crankcase receiver.

Universal Nozzle N100U

N100Up (with Plug)

Mates with the "R" series or standard crankcase receiver.

Standard Receiver R100

R100c (with Cap)

Mates with the standard or "R" series crankcase nozzle.

R series Receiver R100R

R100Rc (with Cap)

Mates with the "R" series or universal crankcase nozzle.

EPK100 Evacuation Port

EPK100c (with Cap)

M24 1.5mm Pitch Thread Size

Mates with the standard and Universal Crankcase Nozzles. Fits All Komatsu Fluid Evacuation Ports Except WA800 and WA900 Transmission.

Coolant Dry Break Couplers

Standard Nozzle N200

N200p (with Plug)

Mates with the standard coolant receiver.

R Series Nozzle N200R

N200Rp (with Plug)

Mates with the "R" series coolant receiver.

Standard Receiver R200

R200c (with Cap)

Mates with the standard coolant nozzle.

R Series Receiver R200R

R200Rc (with Cap)

Mates with the "R" series coolant nozzle.

- ▶ ALL METAL CONSTRUCTION
- ▶ CUSTOM COLOR ANODIZING AVAILABLE ON ALL DRY BREAK COUPLERS
- ▶ WE RECOMMEND CAPS FOR ALL RECEIVERS & PLUGS FOR ALL NOZZLES
- ▶ ALL STANDARD AND R-SERIES COUPLERS HAVE AN OPERATING PRESSURE OF 500 PSI

- ▶ AVAILABLE IN ALL STEEL
- ▶ SEE OWNERS MANUAL FOR AVAILABLE THREAD SIZES

Hydraulic Dry Break Couplers

Standard Nozzle N300B

Mates with the standard hydraulic receiver.

R series Nozzle N300R

Mates with the "R" series hydraulic receiver.

Standard Receiver R300

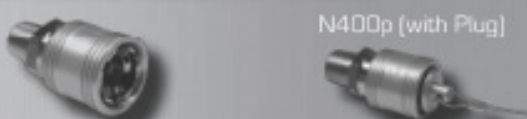

Mates with the standard hydraulic nozzle.

Mates with the "R" series Hydraulic nozzle.

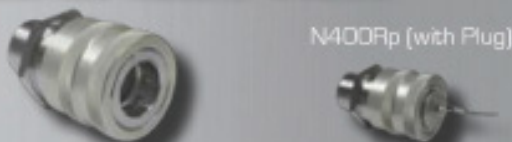

Transmission Dry Break Couplers

Standard Nozzle N400

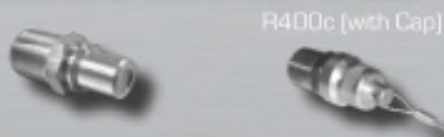

Mates with the standard transmission receiver.

R series Nozzle N400R

Mates with the "R" series transmission receiver.

Standard Receiver R400

Mates with the standard transmission nozzle.

R series Receiver R400R

Mates with the "R" series transmission nozzle.

Oil Sampling Valve OS100

1/2" NPT Threads

The oil sampling valve can be integrated into your existing crankcase line to allow samples to be drawn.

Service Box SB100

Service boxes can be mounted to your mobile equipment to provide a central location for evacuation and refilling of fluids. The service box can be customized to any connection.
